Experiences

Bangkit Academy 2023 by Google, GoTo, Traveloka - Indonesia

Feb 2023 - Jun 2023

Android Learning Path

Bangkit is designed to prepare participants with relevant and in-demand skills based on technical certifications. This year, Bangkit is once again organizing three multidisciplinary learning paths: Machine Learning, Mobile Development (Android), and Cloud Computing. By participating in Bangkit, participants will gain experience and exposure to various career opportunities in the industry and job market within the Indonesian technology ecosystem.

- Studied Kotlin, UX Design & S.O.L.ID
- Prepared for Android Development with Kotlin
- Developed an Android Application using MVVM for Skin Detection (RashIO) for the Captone Project

Vidio - Jakarta

Aug 2023 - Dec 2023

Front End Engineer (Internship)

- Worked on a client side in TV app platforms using React
- Implementing TDD and Extreme Programming
- Developed storybook framework for the TV app
- Helped the team to research regarding the TV navigation for improvement.
- Finished 120+ daily tasks

Bangkit Academy 2024 by Google, GoTo, Traveloka Batch 1 - Indonesia

Feb 2024 - Jul 2024

Android Learning Path Mentor

- Handle and mentor 25 students throughout the program, providing technical guidance and career advice.
- Conduct weekly one-on-one and group consultations, addressing both technical challenges and personal development.
- Review and provide feedback on student projects, ensuring adherence to best practices and code quality.
- 90% of mentees completed the program, with several receiving distinctions in their final projects.

Organisational Experience

English Club SMAN 6 Kabupaten Tangerang - Tangerang

Dec 2017 - Dec 2018

Chairman

- Participated in National Schools Debating Championship (English Debate Competition) in 2018

Projects, Certifications & Other Experience

- **Uniqque** (2022): Developed a Fashion E-Commerce website as a final project for my university's Website Programming class. Designed the project plan, handled front-end development using Tailwind CSS and jQuery, and successfully deployed the website.
- **The Web Developer Bootcamp 2022** (2022): Finished the udemy courses for web developer bootcamp. Trained to make a website from scratch using ExpressJS, MongoDB, and Bootstrap. Created the YelpCamp dupe site for the final project.
- **Hard Skills:** Data structures and algorithms, Database & SQL, Object-oriented programming (OOP), Web Development (HTML/CSS & JavaScript), Android Development (Kotlin with Jetpack Compose), UX Design, Linux CLI, and Git
- **Soft Skills:** Teamwork, Leadership, Communications, Problem-solving, Critical Thinking, Adaptability, and Time Management
- **RashIO Project (Bangkit Capstone Project)** (2023): An Android app that detects skin diseases using CNN-based Machine Learning. Worked as the Mobile Developer and UI/UX Designer
